

6 February 1951

Building Management Division
Public Buildings Service
General Services Administration
5616 Interior Building
Washington 25, D. C.

Attention: Mr. Lewis B. Fly
Acting Chief, Programs Section
Programs and Standards Branch

Dear Sir:

Attached is a copy of my letter addressed to the General Manager, Government Services, Inc., which indicates complete dissatisfaction with the management of the "K" Building cafeteria.

The representations which I have made in this letter are entirely correct and justified; and I feel that the situation requires the immediate attention of both Government Services, Inc., and the Public Buildings Service.

I would appreciate action being taken by the Public Buildings Service in connection with this situation and an indication of what action will be taken to improve the existing poor operation of this facility.

Very truly yours,

Deputy Chief,
Administrative Services
